

## Installing Readability

Readability is a simple tool that makes reading on the Web easier. It removes the clutter around what you are reading and allows you set the size font you would like to read with.

This program only works in Safari. To install the program go to the link below and follow the instructions.

<http://lab.arc90.com/experiments/readability/>

When visiting a page with lots of text that is worth reading simply ‘click the link’ to enable Readability.

# READABILITY

*An arc90 laboratory experiment*

READABILITY is a simple tool that makes reading on the Web more enjoyable by removing the clutter around what you're reading. Follow the steps below to install READABILITY in your Web browser.
